

# PAPERplus® Track

# PAPERplus® Track:

## Compact and fast

PAPERplus® Track combines speed and outstanding cushioning in a compact machine. The machine produces paper cushion in mere seconds directly at the packing station, delivering highly effective padding despite limited use of material.

### PAPERplus® Track at a glance

Suitable shipping goods	Medium to large packages with a weight of five to 30 kilograms
Applications	Block & Brace, Cushion and Void-Fill
Perfectly fitting	Depending on the desired cushioning characteristics, the crinkle of the paper cushion can be easily tailored to any product in advance.
Fast	Thanks to the on-demand function, the system automatically produces more paper cushions the moment they are removed.
Forward-looking	The machine features a touchscreen and can connect to Wi-Fi and can thus be monitored and controlled externally via a tablet if required.
Untiring	The low-maintenance PAPERplus® Track works quietly and enables fast and easy paper replacement.
User-friendly	The paper is perforated, allowing the paper cushions to be mechanically separated easily without a cutting mechanism, thus maximizing employee safety.

### Storopack – Perfect Protective Packaging

Wherever in the world you send your products, we want them to be well protected while in transit.

### Outstanding Cushioning with PAPERplus® Track

With the PAPERplus® Track paper cushion system, you're well equipped to ensure high throughput and secure packaging material. PAPERplus® Track guarantees optimal packing processes and reduces process costs.
