

FIBI-buffer®

Eco-friendly Product Protection

WWW.MEDIAPAC.IT

HIGH-QUALITY PROTECTION

- FIBI-buffer consists of many bio-blocks processed in biofilm.
- The bio-blocks (based on BASF ECOVIO® EA foam) have been extensively tested and offer proven high-quality shock absorption.
- Limit your costs of damage.

UNIVERSAL APPLICABLE

- The patented sheet can be folded or wrapped.
- Efficient protection for various shapes, sizes and weights is therefore possible.
- You remain flexible and save design costs, machinery costs and inventory costs.

MULTIPLE REUSABLE

- FIBI-buffer is not product specific.
- Easily re-usable; with returns, internally within your business chain, externally at your customers or re-use received FIBI-buffer yourself.
- You will save packaging material.

BIOBASED & 100% COMPOSTABLE

- The applied bio-blocks and biofilm are biobased and 100% biodegradable.
- Individually certified according to EN13432.
- Micro-organisms using oxygen and moisture can break it down to water, CO₂ and biomass within 5 weeks.

Aspect	Details
Size pad	5 x 5 x 3 cm
Distance between pads	3 cm
Row length	5 x 8 cm = 40 cm
Pads per cardboard box	5,500
Pads per pallet	11,000
Minimum order quantity	1 pallet

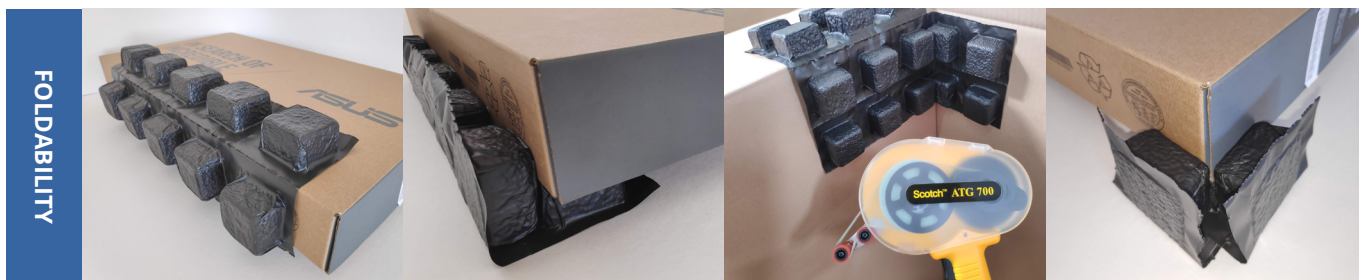

Aspect	Details
Type film	FKUR Bioflex
Colours film	Black, Green
Type foam	BASF Ecovio EA
Density	30 kg/m ³
Cushioning factor	2.7
Certification compostability	Film & foam certified
